## REORGANIZED KLINE COMPANY BUYS IN PLANT

Report Is That Plans Are Under Way for Placing Moderate Priced Richmond-Made Car on Market.

The property of the Kline Motor Car Corporation, which was sold at public auction March 29, being bid in by a committee of bondholders, was yesterday transferred to the Kline Car Corporation, a new concern recently chartered by the Richmond Trust and Savings Company, the trustee under the deed of trust under which the property was sold.

The deed placed on record in the Chancery Court transfers the real estate, consisting of 14.675 acres on the west side of the Boulevard on the Seaboard Air Line Railroad and near the State Fair Grounds, all of the buildings, machinery and fixtures, as well as the right to use the name "Kline Car." It was said recently by an officer of the concern that plans were under way for the manufacture of a moderate priced car, which will soon be placed on the market.

When the Kline people moved to this city from York, Pa., several years ago and erected a large plant in the western part of the city they negotiated a bond issue of \$250,000, the Richmond Trust and Savings Company being named as trustee, and having charge of the sale of bonds. The enterprise did not prove a success, and default was made in the payments. A majority of the bondholders requested the trustee to sell the property, and this was done on March 29, Warner Moore, representing a committee of bondholders, bidding in the property for \$15,000.

The Kline Car Corporation was organized and a charter secured a few days ago. It will continue to manufacture automobiles.

## BLISTERS ITCHED AND BURNED

On Head. Scratched and Scales Came. Combed Out Handfuls of Hair. Could Not Work.

## HEALED BY CUTICURA SOAP AND OINTMENT

"My head broke out with blisters which were as large as my thumbnail. It itched and I scratched, and scales came. My head itched and burned so that I could not do my work. I combed out handfuls of hair, and when I would comb my head it would bleed and hurt so bad till I would cry. It left my head and went down my back and under my arms and all over my breast. I had the trouble four years.

"My sister told me about Cuticura Soap and Ointment. I would wash my head with hot water and Cuticura Soap and let the latter dry in. Then I would apply the Cuticura Ointment. Cuticura Soap and Ointment gave me relief in a week and in six months my head was clear of the trouble. I was healed." (Signed) Miss Verne Craw, Livermore, Ky., Jan. 1, 1915.

## SEABOARD OFFICIALS TO MEET IN SAVANNAH

"Better Acquaintance" Gathering to Secure Effective Co-Operation Opens To-Morrow.

### WARFIELD SEES PROSPERITY

Chesapeake and Ohio Earnings Show Substantial Gain Over Same Period of Last Year—Superintendent of Adams Express Co. Visits Here.

Officials and employees of the Seaboard Air Line will hold a "better-acquaintance" meeting at Savannah, Ga., to-morrow for the purpose of discussing methods of securing a high degree of co-operation between the several departments of the road and between the officials and the employees. The attendance is expected to exceed 2,000, and every division and department of the road will be represented.

Addresses will be made by President W. J. Harahan, Vice-President C. R. Capps, General Superintendent C. S. Lake and other officials. The meeting will be held in the Savannah Theater, and, following its adjournment, the visitors will be taken in special trains over the Central of Georgia to Tybee Beach, where a sea-food dinner will be served.

Special trains with Pullman accommodations will be operated into Savannah from the principal points on the road. A large delegation of Seaboard officials from Richmond will leave to-night at 8:35 o'clock.

S. Davies Warfield, of Baltimore, chairman of the board of directors of the Seaboard, is highly optimistic over the business outlook in the South. Upon his return to Baltimore from a trip of inspection he said:

"I have never seen the crops in the Southern country look better. The corn crop of Georgia, I am informed, will be the largest in the State's history. Cotton, tobacco, corn, watermelons, sweet potatoes and general grain and vegetable crops are in splendid condition, and the diversification of crops, so long discussed, has been realized.

"I had an exceptional opportunity of talking with farmers, planters, bankers and cotton-mill men and others, and the general verdict was that things in the South are looking better than for some time past.

"Along the lines of the Seaboard Air Line I have never seen the crops better. The lumber movement is better, and the general feeling of the people is optimistic. I think it is rather unfortunate that about this time of the year there is created a rather pessimistic or not, I do not know, the impression that something must be done for the cotton grower, when, as far as I am able to judge, he is quite able to look out for his own affairs.

"Speaking for myself, I feel that

we are going to see an increased movement of freight by the railroads of the South and better passenger hauls, which will begin when the harvesting of the new crops has been advanced."

J. M. Huff, superintendent of the Adams Express Company, with headquarters at Washington, was a caller at the general offices of the Chesapeake and Ohio Railway yesterday. Mr. Huff was not very optimistic over the business outlook for the Adams, but said the company was expecting to benefit by the increase in its revenue which will result from the rearrangement of rates recently ordered by the Interstate Commerce Commission—that is, more revenue will be received from the same volume of business. Because the greater part of its business is not of the long-haul variety, such as the Wells-Fargo and the American Express Companies have, the gain which the Adams will make will not be near as large as that of those two companies.

The estimated earnings of the Chesapeake and Ohio for the third week of July are \$822,132, as compared with \$737,343 in the same week last year, an increase of \$84,789. The increase for the first three weeks in July over the same period last year is \$210,139.

### CAPTAIN BAKER DESIGNATED

Will Represent Virginia at Convention on Employment in San Francisco.

Captain W. W. Baker, chairman of the Virginia Commission to the Panama-Pacific Exposition, was yesterday designated by Governor Stuart to represent Virginia at the convention on employment to be held in San Francisco, August 2. Captain Baker is now at the exposition. The Governor acted following a telegram from A. Caminetti, United States commissioner of immigration, inviting him to name a delegate to the convention which will be held under the auspices of the Department of Labor.

W. H. Ashton, of Meadow View, was appointed to represent Virginia on the Lee-Jackson Highway Commission, which has been created for the purpose of furthering interest in the construction of a highway which will have its route through the eastern sections of the Atlantic States.

Izzy Josey, of Columbia, S. C., was designated by the Governor to carry the State flag of Virginia in a parade of Boy Scouts at the South Carolina State Fair. The Governor has sent a flag to Columbia for that purpose.

### Carried Pistol When Arrested.

George Fox, a blacksmith, was arrested last night by Policemen Krouse and Eddleton on warrants sworn out by his wife, who charged him with being drunk and abusing her and with threatening her life. The police found that the man was carrying a pistol when he was arrested, and a charge of carrying a concealed weapon was also entered against him. He will be given an opportunity of explaining by Justice Crutchfield to-day.

## TO DEFEND ITS POSITION IN SUPPLEMENTAL NOTE

Great Britain Will Reply to Unofficial Representations Made by United States.

### WANTS DELAYED GOODS FREED

American Shippers Insistent on Release of Vast Consignments of German and Austrian Products Held in Neutral Ports.

WASHINGTON, July 29.—Unofficial, but vigorous, efforts by the State Department to secure for American importers the release of vast consignments of German, Austrian and other goods held in neutral European ports by the British order in council are believed by officials here to have influenced Great Britain to formulate the supplemental note expected next week. The communication is expected to present an official answer to the unofficial representations made just after the original British note was framed.

The pressure of American demands for detained ships has been great. While the State Department has officially declined to recognize the right of Great Britain to interfere in any way with American trade with neutral ports, unofficially, negotiations have been made seeking to exempt at least the operation of these consignments from the order in council. Negotiations have not been generally successful, and emphatic informal representations have been forwarded to support the claims of American shippers.

The delay of goods valued at \$167,000,000 held in Rotterdam, Holland, and including German and Belgian products, has been the principal case discussed. Efforts to release some shipments contracted for prior to issuance of the British order in council and others on the ground that they were bona fide neutral shipments of Belgian origin have so far been unsuccessful.

Seizure of the steamer Neches, en route from Rotterdam to New York with goods of this character, made it clear Great Britain was determined to prevent the movement of this class of commerce, and it is presumed her position will be argued at length in the forthcoming note.
